SIXTH FORM
TORQUAY GIRLS' GRAMMAR SCHOOL

Next Steps

Tuesday
7th November 2023

Open Evening

A chance to visit the Sixth Form and gather information on the staff, subjects, and extra opportunities available at TGGS.

November 2023 to
March 2024

Individual Consultations:

Options and choice of programme

A member of the sixth form team will discuss your options with you.

External candidates are welcome.

Email: sixthformadmin@tggsacademy.org to book a space.

Friday
19th January 2024

Be a Sixth Former for a Day

Come and be a sixth former, try your preferred A Level subject lessons, take a break in the café following your personalised timetable.

External candidates are welcome.

Email: sixthformadmin@tggsacademy.org to book a space.

Thursday
8th February 2024

Deadline for Sixth Form Applications

Before this date we will build our timetable to best accommodate all applicants. After this date class sizes and course options may be limited.

Monday
13th May 2024

GCSE exams begin

Thursday
22nd August 2024

GCSE results day & Sixth Form Enrolment

All pupils, internal and external, must enrol on their A Level courses by completing the enrolment form.

Friday
23rd August 2024

Sixth Form Enrolment: Day 2

TBC

Induction Day

Collect your timetable, meet new friends and get ready for two exciting years!

TBC

First Day of School

Teaching commences

WELCOME

A Warm Welcome from the TGGGS Sixth Form Team

An exciting and important part of Year 11 is the opportunity to choose the direction of your sixth form education. At Torquay Girls' Grammar School, not only do we offer a broad range of subjects to study at A Level, we also provide many opportunities that will prepare you for life beyond Sixth Form, whether it be going off to university, into an apprenticeship or into the world of work.

You can create a bespoke academic experience with us at TGGGS. Alongside your core A Level subjects, we also provide the opportunity for you to take an AS level in a creative subject such as Art, Drama, or Music, as well as complete an Extended Project Qualification or Sports Leaders Award and become involved in our enrichment programme.

Our enrichment programme offers many varied activities such as the Duke of Edinburgh award, TEFL, volunteering at the Torbay Community Project, taking part in the Junior League of Friends, supporting students in our Hub Scheme, learning how to debate, attending Maserclass lectures, joining our MEDSOC, undertaking work experience, playing Music or Sports, as well as undertaking leadership roles as Academic Ambassadors or being part of the Sixth Form Leadership Team. All students in Year 12 take part in enrichment and develop great pride in learning new skills and helping those in the community in an increasingly competitive world. Enrichment activities form a vital part of any university, apprenticeship or job application, helping you to stand out from the crowd.

The Extended Project (EP) is perfect for broadening your learning beyond A Levels in an area that interests and engages you. The EP carries more UCAS points than an AS level and is highly regarded by universities as you learn how to independently research, Harvard reference and time manage - competencies which are essential in an undergraduate degree course. We are fortunate to have

specialist EPQ tutors who are senior examiners for AQA.

Throughout Years 12 and 13, we promote various opportunities which include UCAS and Oxbridge preparation, studying abroad, taking part in community projects overseas, work placements and attending TGGGS careers conferences in Medicine & Dentistry, Law, STEM, Business and the Performing Arts.

But sixth form life at TGGGS is not just about work; we also have lots of fun! We get involved with lots of initiatives such as Macmillan Coffee Mornings or Up-Cycled Fashion Shows for climate change charities, and we host a week-long school charity event every year. We have team building days and residential opportunities that not only encourage team work but promote friendship and camaraderie. There are also Sixth Form socials to take part in - pizza lunches, cake breaks, shopping and bowling trips, a weekly quiz league as well as a Sixth Form Ball. We encourage you to relax in our newly enlarged Sixth Form café or use the purpose built gym. We know a healthy body and a healthy mind are important if you are to succeed in life.

Our Sixth Form is not just a place to study, but somewhere that allows you to thrive and challenge yourself in a safe and caring environment. Please take the time to look around our school and Sixth Form, talk to current pupils and staff and read our prospectus. We look forward to receiving your application soon.

Mrs T Grigg
Head of Sixth Form

Mrs A Horrocks
Head of Year 12

TGGS is a top performing, single-sex grammar school which not only attains excellent public examination results, but develops the skills and confidence of its inspiring student body by offering a stunning range of extra-curricular activities.

The Sixth Form centre offers modern classrooms with interactive whiteboards dedicated exclusively to the teaching of Year 12 and 13 students; a spacious coffee shop; a careers area and two designated ICT suites. The building is situated close to the Drama and Music block with its superb facilities and the Learning Resources Centre (offering quiet work space throughout the day and a huge selection of books and periodicals). One of the central reasons that the Sixth Form works at TGGS is because it is placed both geographically and spiritually at the heart of the school.

THE FACTS

OFSTED

Ofsted inspected the school in September 2011 and said:

'Students make outstanding progress in the sixth form';

'The extent to which students develop independent learning and personal skills, take on responsibilities and show leadership is striking';

'The implementation of the English Baccalaureate and the Extended Project is highly innovative'.

Overall, they found the Sixth Form to be 'Outstanding'.

For us, whole-school statistics matter less than helping the wonderful young people we work with to fulfil their potential; we remain dedicated to caring, whether that be through creating high expectations or offering one-to-one support.

FINANCIAL SUPPORT

We offer the 16-18 Bursary which is a financial support allocated by the government for payment to those students who are identified as being in need. If you are facing financial difficulties and are aged under 19 on 31st August in the academic year in which you start your programme of study, you may be eligible to receive bursary support. Applications can be made to the Learner Support Bursary once you have begun your A level studies with us. The bursary can be used to pay for items such as laptops, textbooks, travel and school maps.

FORM TUTORS & THE TUTORIAL PROGRAMME

All students are assigned a form tutor with whom they meet on a daily basis for registration and general administration. Tutors are responsible for overseeing academic progress and providing pastoral care. There are approximately 20-25 girls in each tutor group. There is a weekly tutorial session which covers a range of topics, including careers advice, study skills, healthy relationships and living in the wider world, to ensure that students receive the necessary support and guidance.

HOUSE SYSTEM

All Sixth Form students are attached to one of five houses that are organised vertically on a whole school basis. This enables the Sixth Form to feel part of the school as a whole and is integral to our school community. House culture underpins our 10 Habits initiative which aims to ensure our students live long and happy lives. Sixth Form students are given the opportunity to stand as Heads of House and to lead their houses as part of the Sixth Form Leadership Team. This develops leadership and creates role models for younger pupils.

OUR ENTRY REQUIREMENTS

6 full-course GCSE grades at 6 or above

Grade 5 or above in both English Language and Mathematics

All subjects have specific entry requirements, which will need to be met in order to be admitted onto the courses. Details can be found on the adjacent page.

An individual GCSE short-course will not count as part of the six subjects needed.

If a student who currently attends another school achieves less than two Grade 7s in double science, we will ask them to arrange for their school's Examination Officer to complete a form to provide evidence of their performance in each Science subject.

Our full Sixth Form Admissions Policy can be found on our website.

ENTRY CRITERIA

Subject

GCSE Grades Required

Art	6 or above in GCSE Art.	
Business	6 or above in Maths and English Language. GCSE Business is not a requirement but, if taken, a 6 is required.	
Computer Science	No additional requirements.	
Drama and Theatre Studies	6 or above in English Language and English Literature. 6 or above in Drama. <i>Students who have not studied GCSE Drama will be considered on an individual basis but will be expected to perform a short monologue.</i>	
Economics	6 or above in Maths and English Language. GCSE Business or Economics would be useful but is not a requirement. <i>If the GCSE has been taken, a 6 is required.</i>	
English Literature	6 or above in English Language and English Literature.	
French	7 or above in French. <i>If a student achieves a 6, but still wants to take the subject, then the Head of Department will assess that candidate's suitability.</i>	
Geography	6 or above in Maths and English Language. 6 or above in Geography.	
Geology	Separate Science GCSE students: 6 or above in at least two sciences. Double Award Science GCSE students: 6 or above in GCSE Combined Science, and 6 or above in Maths	
German	7 or above in German. <i>If a student achieves a 6, but still wants to take the subject, then the Head of Department will assess that candidate's suitability.</i>	
History	6 or above in History or 6 or above in English Language or Literature GCSE.	
Maths	7 or above in Maths. 6 or above in core and additional science or at least a 6 in two out of three separate sciences.	
Further Maths	8 or above in Maths. 6 or above in core and additional science or at least a 6 in two out of three separate sciences.	
Media Studies	6 or above in English Language and English Literature.	
Music	7 and grade 5 on any instrument/voice OR 6 and grade 6 on any instrument/voice . <i>In exceptional circumstances it may be possible for advanced performers without GCSE, but with grade 5 theory, to join the course after interview with Head of Department.</i>	
Physical Education	A strong practical background is required as well as 6 or above in GCSE Science. GCSE PE is not a requirement but if taken a 6 is required.	
Politics	6 or above in English Language.	
Psychology	6 or above in Maths. 6 or above in English Language or English Literature. 6 or above in Combined Science. Or single Science 6 or above in any two Sciences	
Religious Studies	6 in Religious Studies and 6 in English Language. <i>If RS not taken at GCSE, at least a Grade 6 in History or Geography</i>	
Sciences: Biology	6 or above in Maths.	Separate Science GCSE students 7 or above in chosen A Level science and 6 or above in other two sciences OR Double Award Science GCSE students 6 or above in GCSE Combined Science, with an overall 7 in chosen science and 6 or above in the other two science components.
Chemistry	7 or above in Maths.	
Physics	7 or above in Maths.	
Sociology	6 or above in English Language or Literature. <i>You will not need to have studied Sociology at GCSE level, but you will need to enjoy reading and have an interest in human behaviour and society</i>	
Spanish	7 or above in Spanish. <i>If a student achieves a 6, but still wants to take the subject, then the Head of Department will assess that candidate's suitability.</i>	

The choice of which A Levels to study should be based on a mixture of three things:

- What you enjoy the most – this is really important as you will need to fully immerse yourself in your subjects and engage in super curricular study;
- What you are best at – this can really help facilitate your ability to achieve your full potential and maximise your grade potential;
- What you need for your chosen career – e.g. to become a Physiotherapist you usually need to gain a Biology A level.

All of our students take three A Level subjects chosen from our extensive range.

Art	History
Biology	Mathematics & Further Mathematics
Business	Media Studies
Chemistry	Music
Computer Science	Physical Education
Drama & Theatre Studies	Physics
Economics	Politics
English Literature	Psychology
French	Religious Studies
Geography	Sociology
Geology	Spanish
German	

Students can also choose to study an **optional AS Level** in a creative subject, alongside their three A Levels, in one of the following: Art & Design, Drama & Theatre Studies or Music.

We will enable a student's request to take a fourth A Level as long as it fits within their timetable and the subject classroom size isn't exceeded. Where there are subject clashes, we make every effort to resolve this through our collaboration with TBGS.

YOUR CHOICE

The Extended Project and Enrichment Programme

The Level 3 Extended Project known as the EPQ

Students are taught the study skills needed for the EPQ, supporting coursework (NEAs) in other subjects. They are encouraged to complete the Level 3 Extended Project.

This is essentially an opportunity for individual students to choose a topic from any area of interest and then to work with a designated supervisor to produce either a 5000 word style dissertation, or an artefact (painting, model etc.). Pursuing this qualification allows the student to take real ownership of their project, choosing both the area researched and the mode in which this research is conveyed. It is high-level work carried out independently; there is no checking of rough drafts but there is consultative guidance. Some students choose to study an area related to their chosen Higher Education course, whilst others pursue an interest that they are passionate about.

Past topics include: an analysis of the structural failure of the titanic, an art portfolio documenting a hip joint surgery and recovery, a short documentary film on teenage body image on social media, building a playground in a Sri Lankan hospital, and setting up a historical murder mystery.

The students are supported through the process by:

- A series of taught skills lectures and seminars;
- Watching presentations by Year 13 students on their chosen topics;
- One-to-one mentoring with staff supervisors who provide guidance and support throughout the process;
- Designated time in the curriculum to undertake independent research.

This exciting opportunity allows students the opportunity to research a topic of interest to them, and not only is this highly motivating – as we have seen with our present Year 13 – but is looked on very favourably by universities as evidence of independent learning beyond that normally offered by potential applicants. Some universities are prepared to be flexible with reduced A Level offers if students perform highly in their EPQ.

Sports Leaders Award

Students can choose to complete a L2 Sports Leaders Award instead of an EPQ.

They will learn leadership skills in coaching sports. They will have the opportunity of working with younger students and local primary schools.

Community and Wellbeing Enrichment

In principle, and for the majority of students, the Enrichment Programme will happen throughout Year 12.

We offer a range of activities, from helping disadvantaged children in a local school, to raising funds and awareness of the Torbay League of Friends. The list really is endless, and as a school we provide an array of opportunities and activities for the girls to participate in. We also have an established and vibrant outdoor education programme which can include Ten Tors, The Duke of Edinburgh Award Scheme and World Challenge.

Well-being enrichment takes place on Wednesday afternoons and includes a huge variety of activities from football, to writing literature for children, to knitting and crochet.

LEADERSHIP

Too few women are leaders – we aim to change that!

One aspect of TGGs that may distinguish us from other schools is our focus on the development of leadership. We work really hard to nurture the kind of self-belief needed to be successful in today's work place. This is achieved through our school ethos and curriculum, as well as the many opportunities that we provide for our students to undertake leadership roles.

Students have the opportunity to join the Sixth Form Leadership Team; a pivotal role is being Head Girl. Other key opportunities include being a member of the Head Girl's Team, acting as Heads of House, promoting and encouraging a strong house culture throughout school; running the HUB scheme and leading and organising in-house academic and pastoral support for the lower years. Students are also able to work closely with Heads of Departments as Academic Ambassadors, promoting and supporting learning in their subjects. This list is not exhaustive of the activities that students can take part in, but provides an insight into the kind of opportunities that we make available to them.

We also run a highly successful Duke of Edinburgh programme and regularly enter teams in the annual Ten Tors Competition, encouraging leadership and resilience.

If our students have the skills to develop into the leaders of tomorrow, but lack the confidence to flourish, then we believe that taking on roles and responsibilities such as those mentioned above will help to change that.

OXBRIDGE APPLICANTS

As applying to Oxbridge is a demanding and at first sight bewildering experience, we offer a preparatory programme, which helps to facilitate students throughout the application process. The detailed programme includes:

- Visits to both universities;
- Detailed analysis of the colleges – their strengths and ratio of applicants from private/state schools, and in different subjects;
- Individual help - all students receive tailored advice;
- Interview practice from Oxbridge graduates and members of the Senior Leadership Team.
- A dedicated member of staff to support each student.

THE OPTION TO TAKE AN AS LEVEL IN A CREATIVE SUBJECT ALONGSIDE YOUR 3 A LEVELS

At TGGs, we recognise that you might want more breadth in your curriculum choices; the option to study a creative subject as an AS level could provide an opportunity for you to explore your more creative side. This will enable students to continue studying their core 3 A level subjects, without having to give up a creative option. As a school, we are committed to supporting students who wish to undertake an AS level in Drama, Art or Music, to support the holistic development of each individual; an ethos which underpins our vision at TGGs Sixth Form.

STUDYING ABROAD

We encourage our girls to broaden their horizons in terms of considering where they will study after Sixth Form. We regularly invite speakers to talk to the students about studying in Europe and America as we feel it is important for them to consider all options. The TGGs Sixth Form has become a more cosmopolitan and vibrant place due to the European students who study with us for either a term or a full year. We feel that this is hugely beneficial for all of our students as we are promoting acceptance and understanding whilst helping them develop as 'global citizens'. Students are able to share ideas with each other, learn about different cultures, and speak new languages whilst forming strong friendships that will last a lifetime.

Every year we have students that, alongside successful applications to UK universities, choose to apply to international universities. This year we have a student who has taken up a scholarship at an elite US university and in recent years we have had students obtain places at prestigious European Universities in Germany and The Netherlands. Thanks to the collective experience of our staff, we have the expertise to support those application processes, from documentation guidance to specific interview technique coaching.

THE CAREERS PROGRAMME

The careers programme we offer aims to give independent, impartial advice to all our students.

Some of its key components are:

- Individual interviews with our own highly knowledgeable and approachable Careers Advisor, Mrs Tully and Mr Gordon Neighbour, our Head of Careers;
- Access to UNIFROG – an online portal for both students and parents giving full details on university courses throughout the UK, live apprenticeships and MOOCs (Massive Open Online Courses) on a wide range of subjects which students can complete free of charge;
- Talks on non-university options after A Levels such as higher level degree apprenticeships;
- Talks by university subject specialists;
- Mock interview practice;
- Support with work-experience placements throughout the Sixth Form.
- Visits by apprenticeship providers
- Weekly newsletters from Mr Neighbour (Head of Careers)

MEDICAL/VETERINARY/DENTISTRY PROGRAMME

We have a specific programme designed to support those who wish to pursue a career in a medically related field such as Medics, Vets, Dentists, Nurses, Occupational Therapists, Physiotherapists, Pharmacists, Chemists, Opticians and Midwives. The programme involves:

- Early guidance on the types of activities that would aid a successful application;
- Formal application preparation sessions;
- The opportunity to undertake an Extended Project on a career-related subject;
- The opportunity to take critical thinking to improve performance in the BMAT, UKCAT & interviews;
- Internal interview programme which includes up to three 1:1 interviews with a senior member of staff.
- 1:1 support from an experienced member of staff

We run a successful MEDSOC that enables students to research and discuss current medical and ethical scenarios in a problem solving setting. In previous years we have hosted Operating Theatre Live at our school, a learning experience based around the dissection of real anatomical specimens in an operating theatre environment.

HOW SUCCESSFUL ARE WE?

We are proud of the fact that from 2019-2022, at least 86% of students took up places at their first choice university and during this time 100% of our Oxbridge applicants have successfully gained a place. In 2022, 76% were admitted to the prestigious group of Universities known as the Russell Group and we bucked the national trends with 100% of our medicine applicants gaining a place, AND, 5% are studying a STEM course.*

"The preparation and support for University applications was brilliant. The staff were fantastic at explaining the application process and were always there to answer any questions we had. When we actually put in our applications, the one-to-one sessions with my Personal Statement mentor were extremely useful, especially as I found this aspect of the application quite difficult. The support doesn't stop as soon as the application goes in either, for those with interviews at their universities, lots of advice sessions and mock interviews were available, both of which I personally found very helpful, and I think did a good job at preparing me for my interviews."

Katie, TGGGS Student

Results at A Level in 2022:

79% of A Level grades were A* - B.

59% of grades were an A or better.

31% of grades were A*

41% of our students got 3 or more A*/A grades

16% got three or more A* grades

Results at A Level in 2023 (Return to 2019 Grade Boundaries):

73% of A Level grades were A* - B.

40% of grades were an A or better.

37% of our students got 2 or more A*/A grades

72% got 2 or more A* - B grades

9% got 2 or more A* grades

**2023 data not available at time of publication.*

DESTINATIONS

2022 University Location Map:

"Before joining Sixth Form, I had never been pushed to work at my full capability. At TGGs, I have found that the commitment and passion of my subject teachers has been met with immense support and understanding, allowing me to reach my full potential. I feel very lucky to have been able to experience the community here; immediately after joining Sixth Form I felt at home, and I have met friends for life. TGGs has given me the skills and confidence I need to progress through my career. Joining this school was the best decision that I could have made"

Maisie Wilson (joined us from Coombeshead Academy)

"My time at TGGs gave me the tools and qualities to become one of the role models I looked up to back in Year 7. There is no doubt that within TGGs, every student is inspired, enabled and challenged to achieve their maximum potential in all fields, not just in academics. My year as Head Girl taught me to be a confident, organised, problem solver. I had the pleasure to help organise multiple fundraising events- seeing my favourite teachers in a lip sync battle for Red Nose Day has to be one of my favourite memories. Throughout my TGGs journey, I have never felt unsupported in any aspect from both the teaching and pastoral staff. I have always been encouraged to put my best foot forward and I know I can go on to excel at university and at any other challenges in my future"

Alicia Yau (Former Head Girl)

"TGGs has nurtured my potential and helped me grow into the woman I am today. Through the support and dedication of the teachers, who would always go the extra mile, I developed, not only, academically and also became an independent, creative thinker with a flare for problem solving. I also benefited hugely from the extracurricular activities such as the netball and hockey, The Ten Tors Challenge and The Duke of Edinburgh Award Scheme. My recent visit to Buckingham Palace to collect my Gold Award is an experience I will never forget. The combination of academic study and extracurricular activity really prepared me for the next chapter of my Life. Whether you have already found your career path or if like me, at 16, are unsure what the future holds TGGs puts you on the right path to help you achieve your dreams. I could not have gained my place at Imperial College London, to study Aeronautical Engineering, without their support. I cannot recommend TGGs enough and will forever be a grammar girl till I die".

Amy-Beth Curtis (Studying Aeronautics with Spacecraft Engineering at Imperial University)

TESTIMONIALS

"I cannot recommend TGGs highly enough. It goes without saying that the teaching was always engaging and interesting. However I believe that it is the extent to which the staff are willing to help outside the classroom that truly sets TGGs apart. One prominent way in which I experienced this for myself was through my application process to American university. It was made very clear that nothing was too much to ask of the school and I can firmly say that without the immense amount of help and support offered I would not have been able to even think of applying to the Ivy League institutions that I ended up receiving scholarship offers from. I believe that another brilliant aspect of TGGs is that whilst academics are undoubtedly valued, the same unwavering enthusiasm was offered to friends of mine wishing to pursue other more artistic or vocational paths. Ultimately, I strongly believe that no matter the life goals you set for yourself, a TGGs education will set you well on the way to achieving it. The leadership roles offered at TGGs were undoubtedly instrumental in enabling me to develop confidence in crucial public speaking and organisational skills that I will be able to bring with me throughout the rest of my life. This was replicated in the general school environment where over my 7 years at the school I was accompanied by a group of confident, inspired young women who I am proud to be able to call my classmates"

Georgie Scoot (Studying Liberal Arts at Princetown, New York)

"Having completed years 7-11 and achieving strong results at GCSEs it was an easy decision to stay at Torquay Girls' Grammar School for sixth form. Not only did the school embrace my extra curricular activities, they also supported me when I made a late decision to change my A level choices in order to meet the entry requirements of my chosen course at University. Torquay Girls' Grammar Sixth Form enables you to reach your academic potential whilst still recognising the importance of family and social activities. The support and guidance from Mrs Grigg, Head of Sixth Form, is second to none and she takes a genuine interest in her pupils and their onward progression. "

Amy Bell (studying Sports Science at the University of Bath)

Thank you for visiting our school tonight, we hope you have found the evening informative and useful.

We are always trying to improve the experience for our students and visitors. In order for us to improve future events we would greatly appreciate your feedback.

Please scan this QR Code to access our online one-minute feedback form.
